

KYNETON FNC & Terry Dillon solutions.

Strategic Club Workshop

Our Club is at an important phase in its history. We need to face current day challenges while running a successful, large grass roots Community Sporting Club.

With the support of the Bendigo Football Netball League, we are engaging the services of Terry Dillon Solutions to assist with developing a strategy and structure to help build a strong club for the future.

Terry Dillon's workshop will be held at the KFNC Social Clubrooms on Monday 21st January at 7pm.

This session is open to anybody connected with the KFNC Juniors, Seniors, Netball and Women's football, including supporters, sponsors, volunteers, Junior and Executive Committee members, parents and partners.

The 3 key areas of the workshop include:

- a. HEALTH ASSESSMENT - TDS health check – analysing 10 key areas of the club – identifying gaps and opportunities, succession planning & more**
- b. COMMITTEE STRUCTURE - walking through the importance of having the right committee structure going forward and agreeing on a model for our Club going forward.**
- c. STRATEGIC PLAN ON 1 PAGE - covering the clubs vision, mission, values, 5 key long term strategic pillars (3-5 years), 5 operational short term pillars (12 months) and importantly setting some targets for both the short and long term objectives identified.**

Please make time for this important session.
